Goals for 2022:

(SMART goals will be updated here)

- Create a series of resources on how to talk with your loved ones.

Accomplishments this Quarter (April-June 14, 2022)

- Hosted an educational workshop for caregivers of older adults on April 6th.
- Drug Take back flier created
- Vetted resources for how to talk with your loved ones

Challenges/Questions:

-

Key Learnings/Discoveries:

- Adults over 65 are the highest population to have used an opiate medication that has been prescribed to them in Wisconsin.

Coordination with Other Teams:

- Data committee to assist with evaluation questions for the workshop.

Next Steps

Short Term Goals for 2022

1. Never Use Alone Campaign - neverusealone.com

1. This project has started
2. There is need for marketing
3. Data Team – could they help with distribution
4. Newspapers

2. Nalox Boxes

1. WI Voices will be bringing them to Waukesha in soon
2. DOC has received them

3. Fact Sheets – Idea was a result from a listening session with recovering people

1. Needed for substance users and for families. Recommended they be brief, half-sheets or cards. Contain basic info. QR Codes.
2. Will hold another listening session to determine what should be on them

4. Peer Support

1. Incredibly important, Peer Support seems to have a role in everything we do.
2. We have added one male and one female to our action who are in recovery from opiate addiction.
3. We will work towards breaking the stigma with Pro Health and Waukesha County Jail to allow Peer Specialists in to help with people who overdose. Can be voluntary until funding can be secured
4. A Certified Peer Support Specialist started at WCS and will be working with probation officers to offer peer support to people on probation, and will be adding a second Certified Peer Specialist soon. This is extremely important as it will give probation officers more tools. This can also be a challenge as it is a new way of working with people, strength based.
5. We continue to educate the community on Peer Services and why they are important.

Harm Reduction Action Team

Long Term Goal for 2022

1. **WORTH** – (Waukesha Overdose Response Team Helps) This is our long term goal we would like to accomplish by the end of 2022 - Gave overview to possible stakeholder for possible location.

Accomplishments this Quarter April to June 14

- See above under goals

Challenges/Questions:

- Getting the information distributed within the community (example- Never Use Alone Campaign). And finding places to agree to put the Nalox Boxes in.
- Who in the city can approve putting them in the bathrooms in the parks?

Key Learnings/Discoveries:

- People in recovery are very excited to help and get involved.

Coordination with Other Teams:

- Need help for distribution of the Never Use Alone Campaign.

Next Steps

- Next meeting is scheduled for 6/16
- Meeting with ProHealth Leadership about Peer Support 6/14.

Goals for 2022:

Short Term SMART Goals: 1. General knowledge of the most recent data provided in a quick and easy format on a regular basis by providing five facts/stats to add to the slides used in full Heroin Task Force Community Partners meetings and 2. Collaborate with the Tri-Chairs of the other Action Teams and the members of the Steering Committee to identify data they need to do their work.

Long Term SMART Goal: 1. The development of a “warehouse” or accessible document that will contain links, sources, and references to data. and 2. Gather names of community members to speak at full Heroin Task Force meetings on their expertise in data and provide education on data to the larger membership.

Accomplishments this Quarter (April-June 14, 2022)

- data search comparing Waukesha County data to 4 counties throughout the Country (Colorado, Kansas, Minnesota and Washington)
- provided data resources to the other Action Teams
- formal recommendation to the HTF Steering Committee to reconvene the Overdose Fatality Review Team

Challenges/Questions:

- How do we organize all the data that is out there? and how do we make it accessible to the people who need it?

Key Learnings/Discoveries:

- Everyone believes data is important, which makes this work really important
- data drives many services
- Centralized point for data

Coordination with Other Teams:

- Helping the other Action Teams find any data or data-related information to support their work.
